

Employment/ Unemployment Statisticsⁱ	January 2009	January 2008
Labor Force	4,960,300	686,200
Employed	4,423,300	642,400
Unemployed	537,000	43,800
UI Rate	10.8%	6.4%

The LMID county profile also lists data for Employment by Industry, Occupations with the Fastest Growth, High Wage Occupations, Economic Indicators, Population/Census Data, and Resources for Job Openings and Training Providers.

Under Occupations with Fastest Growth Rate, there is a one page 2006-2016 Projections Highlights of Employment by Industry Sector (Attachment 1). According to this document, occupational projections for period 2006-2016 forecast:

- About 437,400 new jobs from industry growth,
- Estimated 1 Million job openings from Net Replacements, and
- A combined total of 1.5 Million job openings.
- Los Angeles County constitutes about 27 percent of California's total nonfarm employment and will contribute nearly 17 percent of the state's new nonfarm jobs by 2016. Three out of four new jobs are expected to occur in the following industry sectors: Education Services, Health Care and Social Assistance (116,300), Professional and Business Services (90,200), Retail Trade (54,000), and Government (40,100). However, Manufacturing is expected to decline by 41,500 jobs during the same period.

2006 – 2016 Los Angeles County Projection Highlights

Total Industry Employment, including Self-Employment, Unpaid Family Workers, Private Household Workers, Farm, and Nonfarm Employment will reach over 5 million in Los Angeles County between 2006 and 2016. This increase represents a gain of 437,400 jobs for an annual growth rate of nearly 1 percent. This rate is slower than the 1.5 percent annual growth projected for California during the same forecast period.

Los Angeles County constitutes about 27 percent of California's total nonfarm employment and will contribute nearly 17 percent of the state's new nonfarm jobs by 2016. Three out of four new jobs are expected to occur in the following industry sectors: Education Services, Health Care and Social Assistance (116,300), Professional and Business Services (90,200), Retail Trade (54,000), and Government (40,100). However, Manufacturing is expected to decline by 41,500 jobs during the same period.

2006-2016 Industry Sector Employment Levels

The fastest growing nonfarm industry sector, based on the annual average percentage growth rate, is Education Services, Health Care and Social Assistance, which is expected to grow at approximately 2.4 percent per year. Other major industry sectors such as Professional and Business Services (1.5 percent), Retail Trade (1.3 percent) and Wholesale Trade (1.2 percent) will also exceed Los Angeles County's annual growth rate for nonfarm employment.

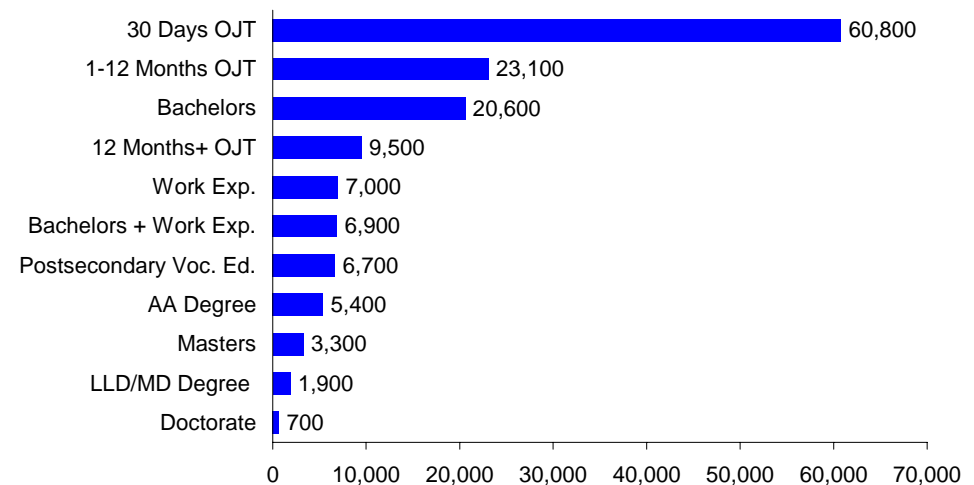

Occupational projections for the period 2006 to 2016 forecast:

- About 437,400 new jobs from industry growth,
- Approximately 1 million job openings from Net Replacements,
- A combined total of nearly 1.5 million job openings.

The 50 occupations with the most job openings are forecasted to generate 815,000 total job openings, which is about 56 percent of all job openings in Los Angeles County. The top three occupations are Retail Salespersons, Personal and Home Care Aides, and Cashiers. These occupations pay from about \$9 to \$10 per hour and require short-term on-the-job training. Occupations requiring short to moderate on-the-job training make up 68 percent of the list. Higher-skilled occupations requiring an associate degree or higher include Registered Nurses, Multi-Media Artists, and Producers and Directors.

The 50 fastest growing occupations anticipate a growth rate of 23 percent or higher for the forecast period. Over half of the occupations require a bachelor's degree or higher such as Computer Software Engineers and Network System Analysts. Healthcare occupations requiring a master's degree or higher include Physical Therapists, Veterinarians, Anesthesiologists, and Pharmacists. These occupations pay median annual wages ranging from \$76,777 to \$116,935.
